Redirect Health

2nd opinion program

When you're diagnosed with a serious condition, everything is different. Priorities change. Who can you trust? How should you think about your time, money, job, and the doctors you will need.

There's rarely only one pathway when you have a serious condition.

Our program guides you through a simple and easy process that helps you know all your options. So you and your family can make the wise and smart decisions right for you. **But always with Redirect Health's Medical Director right at your side the entire time.** Always working with your doctors to keep everything highly organized and timely. Making sure you always get the right care. And we know finances and affordability matter, so count on your team to make sure your coverage is optimized so out-of-pocket costs are minimized.

Redirect Health's 2nd Opinion Process

Step 1: Preparation

Let us do the work. Redirect Health's expert care team will work with your doctors to prepare for your 2nd Opinion virtual consultation. Organizing appointments for x-rays, MRI's, lab work, and whatever else you need.

Step 2: Discovery

Join a live video consultation with Redirect Health's Medical Director and the appropriate specialist as they discuss your options and choices for the best care and outcome. Imagine having a trusted doctor at your side as the various testing and treatment pathway options are discovered.

And invite anyone you want – a family member, another doctor? This meeting is for you. It will be recorded so you can watch and share with whomever you wish.

Step 3: Deciding Together

There's no hurry. Sleep on what you just experienced. Then discuss your options and choices with Redirect Health's Medical Director. So you can decide together what makes the most sense for you.

Supplemental Voluntary Benefits
